HIGHLIGHTED PROJECTS

Barber-Salon

backend · 54

Salon management platform — appointments, staff profiles, customer reviews, gallery, products, multi-language. Django + DRF + Vue.

Django-Store

backend · 26

Amazon-style e-commerce platform — products, brands, reviews, orders, payments, charts, multi-language. Django + DRF + Bootstrap.

Ragolex

backend · 3

Open-source RAG platform: upload documents and get streamed answers that cite their sources. Hybrid search (pgvector + full-text), Vue web app, embeddable chat widget, Python & TypeScript SDKs, an MCP server for AI agents, multi-tenant API keys and retrieval quality measured in CI.

Baeckrei

backend · 1

Bakery management system — production scheduling, recipe-driven inventory deduction, customer accounts, online orders. Django + Vue 3.

AbdullahBakir97

ml · 21

GitHub profile README — animated headers, 3D contribution skyline, per-year stats, full project showcase. Auto-refreshed daily by GitHub Actions.

Jobs-Portal

backend · 29

Jobs portal for seekers and employers — listings, applications, employer dashboards, REST API. Django + DRF.
