HIGHLIGHTED PROJECTS

Barber-Salon

backend · 52

Salon management platform — appointments, staff profiles, customer reviews, gallery, products, multi-language. Django + DRF + Vue.

Jobs-Portal

backend · 30

Jobs portal for seekers and employers — listings, applications, employer dashboards, REST API. Django + DRF.

Django-Store

backend · 26

Amazon-style e-commerce platform — products, brands, reviews, orders, payments, charts, multi-language. Django + DRF + Bootstrap.

Stock-Manager

ml · 1

Professional desktop inventory management for Windows — local-first SQLite store, barcode-aware, multi-user with role separation.

PortfolioCraft

frontend · 1

Generate a verifiable professional portfolio from your GitHub history — README block, JSON Resume, PDF CV, and stat cards. GitHub Action + CLI.

AbdullahBakir97

ml · 20

GitHub profile README — animated headers, 3D contribution skyline, per-year stats, full project showcase. Auto-refreshed daily by GitHub Actions.
